PROFESSIONAL SUMMARY

Software Engineer with 4 years of professional experience in Angular and JavaScript, plus 1+ years of hands-on experience with React, TypeScript, and Node.js, and an M.Sc. in International Software System Science from the University of Bamberg, including thesis work on distributed stream processing with Apache Flink. Looking to bring this experience to a technology-driven team in Germany, building and scaling modern applications.

CORE SKILLS

Frontend: JavaScript, TypeScript, Angular, React, HTML5/CSS3, Tailwind CSS, SASS, WordPress

Backend: Node.js, Java, Spring Boot, PHP

Tools and Other: Git, Docker, CI/CD, REST, Web Accessibility (WCAG 2.1), Figma

EXPERIENCE

Working Student - Software Engineer

04/2023 - 07/2023

automated, Cologne, Germany

- Developed **selector-generation logic** in TypeScript to uniquely identify actionable DOM elements (buttons, inputs) via parent-child DOM traversal, for automated's browser-based automation product
- Wrote and executed tests to validate element-detection accuracy across varied, real-world web page structures

Software Engineer

07/2019 - 08/2022

Genweb2 Ltd, Dhaka, Bangladesh

- Designed and developed modern, dynamic user interfaces for web applications using **Angular**
- Reduced application loading time by over **33%** through architectural refactoring and bundle optimization
- Ensured website accessibility to provide an inclusive user experience, working closely with persons with disabilities to address their requirements
- Delivered high-quality, responsive user interfaces within a cross-functional Agile team environment

Web Developer

05/2018 - 02/2019

SynergyForce Solutions, Winnipeg, Canada (Remote)

- Designed and implemented the front-end architecture for an employee management application
- Performed debugging and testing to ensure the application's functionality

SELECTED PROJECTS

Master's Thesis - Adapting Stream-Based State-Machine Replication to Apache Flink

- Designed, Engineered and Evaluated a **distributed consensus protocol** (Tara) in Apache Flink
- GitHub: github.com/MD-Moinuddin/Masters-Thesis

EMPORIA - Empowerment of Persons with Disabilities through ICT | Angular 8, Spring Boot, WCAG 2.1

- Developed and managed a modern user interface, ensuring a smooth user experience throughout the project
- Converted **Figma** designs into pixel-perfect front-end implementations
- Ensured compliance with **W3C WCAG 2.1 AA** accessibility standards
- Live: emporia.bcc.gov.bd

BDjobs - Accessibility Audit | WCAG 2.1 AA, Screen Readers

- Conducted comprehensive accessibility audits to identify UI and functionality barriers
- Authored technical documentation and collaborated directly with the development team to guide remediation
- Live: bdjobs.com

Arcade - AI Data Optimization Platform | Angular 13, Spring Boot JPA

- Processed scraped web data to improve its compatibility for AI and machine learning workflows
- Designed advanced UI features: **multi-item drag-and-drop clustering**, image magnification, keyboard shortcuts

EDUCATION

M.Sc. International Software System Science

04/2022 - 08/2026

Otto-Friedrich-Universität Bamberg, Bamberg, Germany

B.Sc. Computer Science & Software Engineering

01/2014 - 12/2017

American International University-Bangladesh, Dhaka, Bangladesh

LANGUAGES

English: C1 **German:** A2
